[LeetCode](#) | Raipur, India

SUMMARY

Computer Science undergraduate with a strong foundation in C++, Data Structures, Algorithms, and Object-Oriented Programming. Hands-on experience building responsive full-stack web applications using React.js, JavaScript, Tailwind CSS, Node.js, and MongoDB/Appwrite. Proven problem solver with a 100-day LeetCode streak (100+ problems solved). Passionate about software engineering, writing scalable code, and exploring real-time systems and AI integrations.

EDUCATION

Shri Shankaracharya Institute of Professional Studies (SSIPS), Raipur
Bachelor of Science in Computer Science

June 2025 – 2028
Raipur, Chhattisgarh

TECHNICAL SKILLS

Programming Languages: C++ (Primary), JavaScript (ES6+), HTML5, CSS3
Frontend Development: React.js, Redux Toolkit, Tailwind CSS, REST APIs
Backend & Databases: Node.js (Basic), Express.js (Basic), Appwrite, MongoDB (Basic), MySQL (Basic)
Tools & Platforms: Git, GitHub, VS Code, Vercel, Postman
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Time & Space Complexity, Problem Solving, CRUD Operations

PROJECTS

NexusPost – Full Stack Blog Platform

[\[GitHub\]](#)

Tech Stack: React.js, Tailwind CSS, Appwrite, JavaScript

- Built a responsive blogging platform using React.js, Tailwind CSS, Appwrite, and JavaScript.
- Implemented core features including user authentication, post creation/editing, likes, view counters, and cloud image storage.
- Mastered backend integration, database management, API handling, and secure authentication flows.
- Improved React component architecture, state management, UI responsiveness, and real-world debugging skills.

Real-Time Web Application

[\[GitHub\]](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, WebSocket

- Developed a full-stack web application featuring real-time data sync and multi-user interactions.
- Designed RESTful API endpoints for authentication, user sessions, and persistent data storage in MongoDB.
- Formatted clean UI components with dynamic state management and responsive Tailwind CSS layouts.

PROBLEM SOLVING

- LeetCode Practitioner:** Solved 100+ Data Structures & Algorithms problems on LeetCode with a 100-day problem-solving streak.
- Data Structures Expertise:** Strong understanding of Arrays, Strings, Linked Lists, Stacks, Queues, Hash Maps, Trees, Sliding Window, Two Pointers, and Binary Search.
- Optimization Skills:** Proficient in analyzing Time Complexity and Space Complexity to optimize algorithm performance.

ACHIEVEMENTS

- Maintained a continuous 100-day problem-solving streak on LeetCode.
- Built and deployed multiple web applications hosted on Vercel and GitHub.
