Portfolio | LeetCode | Raipur, India

SUMMARY

Computer Science undergraduate with a foundation in C++, Data Structures, Algorithms, and Object-Oriented Programming. Hands-on experience building full-stack web applications using React.js, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB, and Appwrite. Solved 100+ LeetCode problems through regular practice. Interested in software engineering, web development, and building practical applications.

EDUCATION

Shri Shankaracharya Institute of Professional Studies (SSIPS), Raipur — *June 2025 – Present*
Bachelor of Science in Computer Science — **CGPA: 7.28/10**

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), HTML5, CSS3
Frontend: React.js, Redux Toolkit, Tailwind CSS
Backend & Databases: Node.js, Express.js, MongoDB, Appwrite,
Tools: Git, GitHub, VS Code, Postman
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming

PROJECTS

VideoTube – Full Stack Video Sharing Platform [GitHub] [Live Demo]

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Developed a full-stack video-sharing application with a React.js frontend and Node.js backend.
- Integrated frontend components with backend REST APIs for video-related operations.
- Implemented responsive layouts and reusable components to improve usability across screen sizes.
- Deployed the application using Vercel and configured frontend-backend communication.

TaskForge (Karya) – Team Project Management Platform [GitHub]

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Built a platform for teams to create projects, add members, assign tasks, and track progress.
- Implemented task management with priorities, statuses, deadlines, and assignments.
- Developed authentication and authorization for users, project owners, and team members.
- Designed RESTful APIs using Express.js and MongoDB for persistent data storage.

NexusPost – Full Stack Blogging Platform [GitHub] [Live Demo]

Tech Stack: React.js, Tailwind CSS, Appwrite, JavaScript

- Built a blogging platform to create, edit, publish, and manage posts.
- Implemented authentication and user-specific content management.
- Added likes, view counters, and cloud image storage using Appwrite services.
- Developed reusable React components and responsive layouts for mobile devices.

PROBLEM SOLVING

- **LeetCode:** Solved 100+ problems covering Data Structures and Algorithms.
- **DSA Fundamentals:** Arrays, Strings, Linked Lists, Stacks, Queues, Hash Maps, Trees, and Binary Search.
- **Problem Analysis:** Practice with brute-force and optimized approaches, including Time and Space Complexity.
